

PhytoGreen®-Zinc Fertilisers

OUT OF ZINC OXIDE AND ZINC SULFATE

Composition:

PhytoGreen®-Zinc40:

40 % zinc (700 g/l Zn)

PhytoGreen®-ZincCarboxylate

10% water soluble Zinc (130 g/l Zn) + **carboxylic acids**

CARBO-ECO Zn:

5% water soluble Zinc (58 g/l Zn) + **carboxylic acids**

Mode of action and advantages:

- Supply zinc (zinc bioavailability is low at high phosphor level/ in cold and wet, humus-rich soils / in soils with high pH value)
- Formulated as high concentrated suspension or as water soluble carboxylates
- Quick absorption and direct availability
